A BIG SUCCESS

Is the First Annual Cycle Show Under Y. M. C. A. Auspices.

HUNDRED AND FIFTY WHEELS

Are Exhibited by Fifteen Wheeling Dealers—Many Novel Features of the 1897 Models—The Exhibits Delineate Handicraft—The Show is to Continue this Afternoon and To-night—A Ladies' Matinee To-day is a Feature.

The first annual Cycle Show under the auspices of the Y. M. C. A., which opened last evening at the Association building, is a brilliant success from the artistic point of view, and although the disagreeable weather kept away many people last night, it is fair to assume that the attendance to-day—with more favorable conditions—will come up to the expectations of all.

Wheeling never before had a cycle show, and this one is an experiment and a successful one, for all of the dealers who spoke of the undertaking last evening, said they were in favor of having the Y. M. C. A. continue so popular a feature. It is likely the show will be made an annual event. It is estimated that there are 1,500 cyclists in Greater Wheeling, so it is seen that a show appeals to a number of people large enough to be catered to through the medium of an annual exhibit of models for the year.

The entire building is given up to the show. The only rooms not occupied by wheel exhibits are those in which the ladies auxiliary serves ice cream, water ices and cake to the visitors. This feature, by the way, was a popular one last night and will, no doubt, continue so this afternoon and evening.

The show continues to-day. In the afternoon, commencing at 1 o'clock, there will be a ladies' matinee, to which all of the ladies of Wheeling, who are interested in wheels—and there are hundreds of them—are given a cordial invitation to attend. To-night the show will close.

Entering the main hall, in the parlor to the right are found the exhibits of R. E. Schubert and Henry Kalbitzer. Mr. Schubert shows the Hoffmann line of cycles, ten models and fifteen wheels. The single machines are \$100 and \$125, while the tandem is listed at \$150. A novelty in use on the Hoffmann wheel is the triangular reinforcement which is claimed to add seventy per cent of strength to the tubing.

Mr. Henry Kalbitzer's exhibit includes the Relay, two wheels, at \$75 and \$100; the Union, one model, \$100; the Erie, one model, \$50, and the Pyramid, one model, \$40. This exhibit and Mr. Schubert's are neatly and attractively arranged.

To the left is the exhibit of the Dillon, Wheat and Hancher Co., one of the pleasantest nooks in the building. Here is shown a diversified and attractive display of bicycles. The Columbia, of course, is this firm's leader. Two models, ladies' and gentlemen's, are shown, and as a matter of course the price is \$100. The medium grade Hartforders are shown in two models at \$75. The Stearns—the Yellow Fellow—at \$100, attracts attention in this exhibit. Other machines shown are the Outing, two models, \$50 and \$75; the Deuber, two models, \$65, and in juveniles are seen the Signal at \$30 and the Elfin at \$40. Music and other attractions make this exhibit one at which there is always a crowd. Mr. Charles N. Hancher was in charge last night.

State Senator O. M. Marshall of Hancock county, and Editor A. W. When the senator was asked whether he was after a "plum," he replied in the negative and remarked that he and his friend Brown were going to the front to see that the senate passes the Dingley bill without delay.

Mr. Hanke's Funeral.

The funeral of the late Charles Hanke took place yesterday afternoon at 2 o'clock from the family residence, 1425 Market street, and it was the occasion for a large attendance of the friends of the deceased. Baltimore Lodge No. 6, K. of P., of which Mr. Hanke had been a member twenty-eight years, escorted the remains from the house to the Peninsular cemetery, the place of interment. The services were conducted by Rev. William W. Wender, of St. James German Lutheran church, and Rev. Samuel Schwarm, of the First English Lutheran church, the former speaking in German and the latter in English. The six sons of the deceased acted as pall bearers, being: Alonzo L. Eugene S. Elwood S. Alfred A. Theodore S. and Edgar L. Hanke.

Charles R. Goetze shows the Syracuse line. Four machines are exhibited, two Empires at \$75.50, and two Princetons, at \$47.50.

W. J. Lukens has a handsomely decorated booth and an attractive line of machines. His leader is the Cleveland, of which three models are shown, at \$100. Then there is the Westfield—the Lozier Company's medium grade machine—at \$60, two models. Mr. Lukens was in charge of the exhibit last night. Among

the features of the Cleveland is the new Cleveland tire, the new Cleveland chain, and a new flange on the sprocket that is claimed to result in less friction.

In the same room is the exhibit of Harry E. Hillman. His leading machine is the Monarch, a machine that is becoming popular here this season for the first time. It is listed at \$100. The Racycle, at \$85, is also shown.

An exhibit that attracted many was that of Jacob W. Grubb. He has the new hickory machine, which is finished most beautifully, and is very light.

Entire Train Destroyed.

INDIANAPOLIS, Ind., April 8.—A Big Four freight was annihilated by an explosion at the Belt Junction to-day. The trouble probably originated in a car loaded with whisky. The car had a hot box. After the terrible explosion a fire company rushed to the scene, but the entire train of fourteen cars was destroyed. The trainmen escaped injury, but Otto Cresham, who was sleeping in one of the cars was pinned to the burning floor. He was removed to the hospital in a serious condition.

Gen. Boynton Honored.

WASHINGTON, April 8.—The reorganization of the Chickamauga and Chattanooga National Park Commission necessitated by the recent death of its chairman, Gen. J. S. Fullerton, was perfected by Secretary Alger to-day. Gen. Henry V. Boynton, who has assisted the commission in historical work, was transferred to full membership in the commission and appointed chairman; General H. M. Duffield was appointed to the vacancy caused by General Boynton's promotion.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. And unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

MRS. A. INVEEN, residing at 720 Henry St., Altoon, Ill., suffered with acute rheumatism for over eight months. She doctored for it nearly the whole of this time, using various remedies recommended by friends, and was treated by the physicians, but received no relief. She then used one and a half bottles of Chamberlain's Pain Balm, which effected a complete cure. This is published at her request, as she wants others similarly afflicted to know what cured her.
